In Pennsylvania, students receive gifted support services provided through their Gifted Individualized Education Plan. Are you new to or confused about the process? Bring your GIEP for a free, hands-on workshop that will help you to be an advocate for your child. During this workshop, you will learn:

- gifted education law in Pennsylvania, Chapter 16
- to understand the structure of the GIEP
- learn suggestions for collaborating with your student's educators

This workshop is presented by the Downingtown Area Gifted Education Network, an affiliate chapter of the Pennsylvania Association for Gifted Education. DAGEN is a parent-led, volunteer group that supports parents of identified gifted children in the Downingtown, PA area. All interested are welcome to attend.
